**10% MORE  
GARDENS**

# IN 1944

**25% LARGER  
GARDENS**

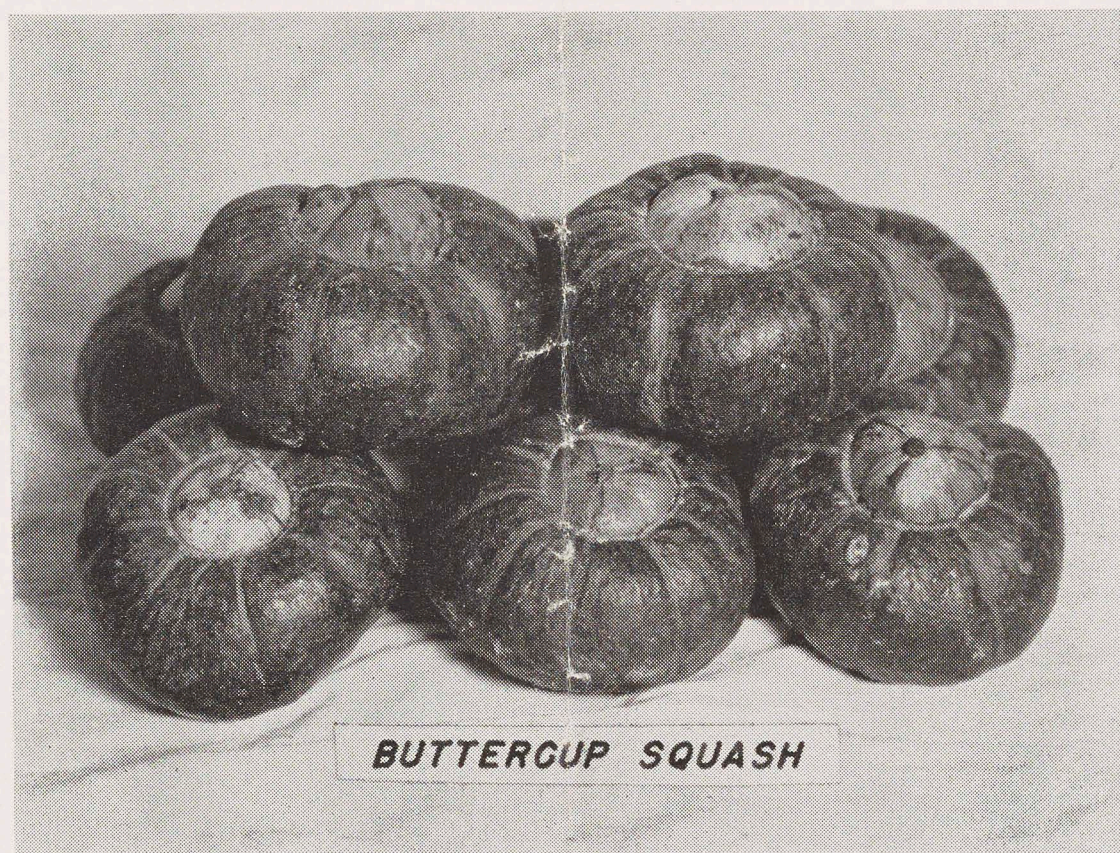

## SIX IMPORTANT GARDEN STEPS

### PLANNING

**PLAN BEFORE PLANTING!**  
What? How much? When? What Spacing is best?

### VARIETIES

**VARIETIES ARE IMPORTANT!**  
Use recommended sorts! Don't waste seed.

### INSECTS

**INSECTS CAN BE CONTROLLED!**  
Spray or dust when pests first appear before serious damage develops.

### DISEASES

**SPRAY REGULARLY!**  
Bordeaux Mixture will help control many garden diseases.

### PRESERVATION

**WE MUST HAVE ENOUGH!**  
But first someone must grow the vegetables!

### STORAGE

**STORE MORE VEGETABLES!**  
More Vegetables must be stored fresh.

**Leaflets on Garden Varieties, Planting Dates, Garden Spacing, Insect and Disease Control, Freezing, Brining, Drying, Canning and Storing Vegetables are Available from Your County Extension Agent.**
